4. Executive attention to the WH area continues on a high priority basis because of the obvious threats to U.S. Security. The WH area is not in a static condition but can be expected to be explosive in any part at any time. We can foresee no diminution of size or complexities in our structure and operations.

5. It is essential that the support personnel be of a caliber and status to insure effective liaison and support to this Division. When considering the seniority of Branch and staff personnel with whom these incumbents will be working at least GS-14 grades are appropriate.
